Cedar & Crumb Bakery

Mountain grains, city mornings.

Business Profile · Mar Mikhael, Beirut · Established 2021

About Us

Cedar & Crumb Bakery is an artisan bakery and cafe at 112 Armenia Street in Mar Mikhael, Beirut. It was founded in 2021 by head baker Rania Haddad and operations lead Karim Nassar, who wanted to bring back the flavour of the bread they grew up with: slow, honest loaves made from Lebanese grain. Today we bake every morning for our neighbourhood, for celebrations across the city, and for a growing list of cafes and restaurants.

Our Mission

To bake honest, slow-fermented bread and pastries that bring together Lebanese baking heritage and European artisan technique, made from heritage wheat grown by small farmers in the Bekaa Valley, while wasting nothing.

What Makes Us Different

- **Milled in-house, every morning.** We are the only bakery in Beirut that stone-mills Lebanese heritage Salamouni wheat on site each day, so our flour is hours old, not months old.
- **48-hour sourdough.** Every sourdough loaf is fermented for 48 hours for deeper flavour and easier digestion.
- **Fusion pastries you will not find elsewhere.** Signature bakes such as the knefeh croissant and the pistachio and rose pain suisse.
- **Direct from six Bekaa family farms.** We buy our wheat directly from the farmers at a fair price agreed before each harvest.
- **Zero-waste kitchen.** Unsold bread is donated every evening to a local food bank or turned into croutons and bread pudding.
